Eddie Jung

Frontend Developer | React & TypeScript Specialist

Frontend developer with 8+ years of experience building accessible, performant apps with React, TypeScript, and modern JavaScript. Skilled in Agile teams, CMS integrations, and UI optimization.

Relevant Experience

Web Developer · **Genvid Technologies** Nov 2021 – Feb 2024

- Developed interactive streaming game interfaces using **React** and **TypeScript**, delivering smooth, **type-safe**, and **high-performance** experiences for over 10k concurrent players in *The Walking Dead: Last Mile* and *Silent Hill: Ascension*.
- Implemented **Redux Toolkit** for scalable state management and **Context API** for local state handling.
- Integrated **Payload CMS** with a custom **Node.js** and **Express** backend, enabling real-time content management for game directors and producers.
- Engineered a tag-based query system to retrieve game data via **MongoDB**, improving data retrieval accuracy by 50%.
- Collaborated in Agile sprints, including daily stand-ups, sprint planning, and retrospectives.
- Served as **feature lead**, mentoring junior developers and ensuring timely delivery of mission-critical features.

Software Engineer · **Sunrise Integration** Apr 2017 – Feb 2021

- Developed custom **Shopify** and **React Native** applications for e-commerce clients using **Laravel**, **React**, **PHP**, and **JavaScript**.
- Managed and executed large-scale **data migrations** across Shopify platforms.
- Designed and maintained high-traffic storefront features for a top-three t-shirt printing company on Shopify.

Frontend Developer · **Pixel Motion** Mar 2016 – Mar2017

- Built and maintained automotive dealership websites using **WordPress**, **MODX**, **jQuery**, and **Bootstrap**.
- Created a custom WordPress plugin for staff management using **PHP**, improving client-side content control.
- Maintained client relationships and delivered fast-turnaround updates within Agile sprints.
